Subject Index—Volume 54

Academia, technology assessment and, 131, 269
Achieving international competitiveness through technology development and transfer, 37
Action-learning process, governing in information society and, 29
Adaptive systems perspective, governance and, 79
Adoption-diffusion process, state government actions and, 57
Agents, governance and, 79
Agents of change, 7
Agro-industrial export potentials, governance of technical initiatives in energizing, 37
American Council for United Nations University, Millenium Project 1996 look-out study and, 99
Analytic governance, synthetic technology and, 17

Balance, technology assessment and, 145
Behavior patterns, governance and, 79
Bipartisanship, technology assessment and, 131
Bounded instability, governance and, 79
Broad participation, technology assessment and, 145
Business
  cyber, 291
  virtual reality for, 291

Canada, governing in information society and, 29
Capacity, governance and, 79
Capitalism, future of, 119
Changing reality, synthetic technology-analytic governance and, 17
Citizen organizations, technology assessment and, 163
Classical paradigm, of technology assessment, 269
Committees, technology assessment and, 215, 233
Communication technologies, world governance network and, 95
Complex adaptive systems, governance and, 79
Complex systems, metaphor for evolution of, 3
Complex technologies, synthetic technology-analytic governance and, 17
Computerized communcations revolution, printing press development and, 11
Conceptual model of governance, U.S., 17
Conflict
  governance and, 79
  Millenium Project 1996 look-out study and, 99
Congress, technology assessment and, 177, 191, 199
Consensus conferencess, technology assessment and, 199
Constructive technology assessment
  as paradigm, 269
  past and future of, 251
Consumers, constructive technology assessment and, 251
Control, constructive technology assessment and, 251
Cooperative networks, adaptive systems perspective and, 79
Coordination-intensive structures and networks, rethinking governance and, 6
Corporate interests, technology assessment and, 163
Cost effectiveness, world governance network and, 95
Customer definition, technology assessment and, 215
Cyber business, 291
Cyber society, 291

Decision-making
  state government actions and, 57
  technology assessment and, 177
Deflection, technology assessment and, 163
Democratic participation, technology assessment and, 191
Denmark, technology assessment in, 199, 251
Design phase
  constructive technology assessment and, 251
  reengineering technology governance for Philippines 2000 and, 37
Development process, constructive technology assessment and, 251
Dialogue
  constructive technology assessment and, 251
  technology assessment and, 199
Diffusion, state government actions and, 57
Divergence, synthetic technology-analytic governance and, 17
Division of labor, constructive technology assessment and, 251
Dynamics, constructive technology assessment and, 251

Ebb and flow, of exceptionalist culture, 17
Emergent order, governance and, 79
Empirical test, state government actions and, 57
Environmental effects, of technology, 287
Europe
  printing press development in, 11
  technology assessment in, 199, 233, 269
Evolution, of complex systems, 3
Expanding participation, technology assessment and, 233
Expert advice, technology assessment and, 191
Exploitation, world governance network and, 95
Export gain, reengineering technology governance for Philippines 2000 and, 37
Extended communication model, state government actions and, 57

Financial rewards, printing press development and, 11
Financial support, state government actions and, 57
Flexible product line, technology assessment and, 145
Formal systems, governance and, 79
Foundation-supported non-profit organizations, technology assessment and, 199
French Revolution, 18
Friendly fascism, 1
Future, encyclopedia of, 289
Future development, world governance network and, 95
Future governance needs, synthetic technology-analytic governance and, 17

Generic strategies, constructive technology assessment and, 251
Global information society, governing in, 29
Globalization, 3
Global outcomes, governance and, 79
Global tribes, 7
Good uncertainty, 7
Governance
  analytic, 17
  cooperative networks and, 79
  information society and, 29
  Millenium Project 1996 look-out study and, 99
  Philippines 2000 and, 37
  proposal for world governance network and, 95
  technology and, 1

Government
printing press development and, 11
technology assessment and, 163
Government-supported entities, technology assessment and, 199

Human systems, governance and, 79

Impact, constructive technology assessment and, 251
Implementation process, technology assessment and, 145, 251
Industrial sector, technology assessment and, 131
Informal networks, governance and, 79
Information society, governing in, 29
Information technology, 3
Innovation
state government actions and, 57
synthetic technology-analytic governance and, 17
Institutional interests, technology assessment and, 199
Inter-branch organizations, technology assessment and, 233
International agencies, governance and, 79
Internet
public access to, 291
world governance network and, 95
Inter-sectorial organizations, technology assessment and, 233

Jihad vs. McWorld, 6

Learning systems, governance and, 79
Legislative staff, technology assessment and, 233
Legislatures, technology assessment and, 199
Local agents, governance and, 79
Localization, 3
Loci for alignment, constructive technology assessment and, 251
Look-out study, Millenium Project 1996, 99
Low-profile expert-oriented technology assessments, 199

Management
governance and, 79
technology assessment and, 145
Methodology, technology assessment and, 145
Modern world, printing press development and, 11
Modulation, constructive technology assessment and, 251

National development management process, reengineering technology governance for Philippines 2000 and, 37
Netherlands, constructive technology assessment in, 251
New technologies, world governance network and, 95
New York State Energy Research and Development Authority, state government actions and, 57

Objectivity, technology assessment and, 145
Office of Technology Assessment (OTA)
agency perspective, 131
Congress and policy analysis, 177
end of OTA and future of technology assessment, 125
lessons in technology assessment, 145
new opportunities for technology assessment in post-OTA world, 199
paradigm of technology assessment and, 269
reflections of a participant-observer, 163

a retrospective and prospects for the post-OTA world, 191
state legislatures and, 233
U.K. Parliamentary Office of Science and Technology and, 215
Open interface, technology assessment and, 131
Organizational factors, state government actions and, 57

Pacification, technology assessment and, 163
Parliamentary Office of Science and Technology U.K., U.S. Office of Technology Assessment and, 215
Participant-observer reflections, technology assessment and, 163
Past, lessons from, 4
Pentium chip, 11
Philippines 2000, reengineering technology governance for, 37
Policy analysis, technology assessment and, 177, 199
Political consequences
printing press development and, 11
technology assessment and, 269
Poverty, governance and, 79
Printing press, development of, 11
Private consultancies, technology assessment and, 199
Private sector, technology assessment and, 131, 145
Private sector executives, governing in information society and, 29
Procedural facilitation, state government actions and, 57
Process
constructive technology assessment as, 251
technology assessment as, 269
Producers, constructive technology assessment and, 251
Product, technology assessment as, 269
Productivity, printing press development and, 11
Promotion
constructive technology assessment and, 251
printing press development and, 11
Public access, to Internet, 291
Public sector, technology assessment and, 145, 163, 145, 269

Quality control, technology assessment and, 269
Questionnaires, technology assessment and, 177

R&D, technology assessment and, 233
Reality, synthetic, 17
Reinvention, technology assessment and, 145
Renaissance experience, printing press development and, 11
Reports, technology assessment and, 145
Response time, governance and, 79
Role, constructive technology assessment and, 251
Roundtable meetings, Canadian, 29

Science and technology, technology assessment and, 145
Science Committee of the House of Representatives, technology assessment and, 131
Self-conscious attitude, technology assessment and, 233
Semi-structured interviews, technology assessment and, 177
Senate, technology assessment and, 131
Senior governement officials, governing in information society and, 29
Shadow organization, governance and, 79
Simultaneous localization, 3
Slower technology pace, 2
Social stress, synthetic technology-analytic governance and, 17

Social structure, printing press development and, 11
Socioeconomic impacts, reengineering technology governance for Philippines 2000 and, 37
Sociotechnical criticism, constructive technology assessment and, 251
Sponsorship, state government actions and, 57
State government actions, and innovation and diffusion, 57
State legislatures, U.S. Office of Technology Assessment and, 233
Strategic niche management, constructive technology assessment and, 251
Support agencies, technology assessment and, 177
Synthetic technology-analytic governance, 21st century challenge and, 17
System growth, phases of, 4

Technical agencies, governance and, 79
Technocratic interests, technology assessment and, 163
Technological disruptions, historical lessons from, 111
Technology forcing, constructive technology assessment and, 251
Technology governance, for Philippines 2000, 37
Technology-organization gap, 1
Tension, governance and, 79
Thought patterns, governance and, 79
Transformation, printing press development and, 11

Underdevelopment, governance and, 79
United Kingdom, technology assessment in, 199, 215
United Nations Development Program, reengineering technology governance for Philipines 2000, 37
United Nations University, Millenium Project 1996 look-out study and, 99
United States
  synthetic technology-analytic governance in, 17
  technology and governance in, 8
  technology assessment in, 125, 131, 145, 163, 177, 191, 199, 215, 233, 269

Value profile, constructive technology assessment and, 251
Virtual reality, for business, 291

World governance network, proposal for, 95
